

Trimble Software

Computer (desktop or laptop)

Minimum computer and system requirements are:

- **Processor:** Intel Core i5 processor or better
- **RAM:** Minimum 8 GB
- **Hard Disk Space:** 20 GB free
- **Monitor:** 1366x768 or better (min 256 colours)
- **Network:** 1GB (wireless network connections may reduce performance)
- **Printer:** Must be on the Microsoft 'Hardware Compatibility List' and drivers fully updated
- Mouse
- Internet access required

Server

As per Microsoft recommended specification for the chosen operating system, adjusted for the requirements of SQL Server. Additionally, this needs increasing further if Terminal Server or other remote application technology is being used.

Performance is dependent on environmental factors. The following are outline specifications and are guidelines only, you should consult with your hardware supplier to ensure a solution compatible with your environment.

5 Concurrent Users (minimum requirements)

- **CPU:** Dual Core 2GHz+ CPU
- **RAM:** 12 GB
- **Database space:** 10GB

25 Concurrent Users (minimum requirements)

- **CPU:** Quad Core 2GHz+ CPU
- **RAM:** 24 GB
- **Database space:** 20GB

Minimum operating system requirements

The following operating systems are supported:

- Microsoft Windows 7 Home Premium (32 bit and 64 bit) or higher
- Microsoft Windows Server 2012 (Network installation) or higher

An NTFS file system must be used (not FAT32)

All antivirus and firewall software must be disabled prior to the installation. The Trimble Product Suite cannot be installed on a compressed drive

For setup of Service Manager Mobile and Web Services IIS is required. Please speak to Trimble Sales (01908 608833) and your IT department for further advice

Minimum SQL requirements

The following versions of Microsoft SQL Server database are supported for network installations:

- Microsoft SQL Server Express 2012 (32 bit and 64 bit) or higher
- Microsoft SQL Server Standard 2012 (32 bit and 64 bit) or Higher

Trimble Mobile Apps

This is the minimum recommended spec for devices. Trimble Mobile Apps can be installed on devices below this spec, however this may compromise performance and reliability of the software.

Apple - iPad 2 or later, iPad Mini

Android - Android 4.4+, a minimum of 1.5Ghz processor and 2Gb of memory. Due to the variety of devices available on the Android market; the performance can vary dramatically dependent upon the individual device, and its capabilities

Note: The Service Manager Engineer App is only available on Android and the FastTest App requires a tablet
